**OCT 19 1988**

Dr. Ken Rea  
Environmental Restoration Program  
Technical Support Office  
Los Alamos National Laboratory  
Los Alamos, NM 87545

Dear Dr. Rea:

Rich Schassburger of my staff discussed having your group review the comments received on the Feasibility Study for the 881 Hillside Area and the feasibility study with Rich Sena of Albuquerque Operations Office. Enclosed are copies of comments received from DOE-HQ as well as the Environmental Protection Agency on the Draft Feasibility Study for the 881 Hillside Area. A copy of the feasibility study, due to its bulk, is being sent under separate cover.

I would appreciate it if my office received your comments by October 31, 1988. Should you have any questions, refer them to Rich Schassburger on FTS 320-2762.

Sincerely,

Albert E. Whiteman  
Area Manager
